

Phoney Patents

Under this heading are published electrical or mechanical ideas which our clever inventors, for reasons best known to themselves, have as yet not patented. We furthermore call attention to our celebrated Phoney Patent Offizz for the relief of all suffering daffy inventors in this country as well as for the entire universe.

We are revolutionizing the Patent business and OFFER YOU THREE DOLLARS (\$3.00) FOR THE BEST PATENT. If you take your Phoney Patent to Washington, they charge you \$20.00 for the initial fee and then

you haven't a smell of the Patent yet. After they have allowed the Patent, you must pay another \$20.00 as a final fee. That's \$40.00! WE PAY YOU \$3.00 and grant you a Phoney Patent in the bargain, so you save \$43.00!! When sending in your Phoney Patent application, be sure that it is as daffy as a lovesick bat. The daffier, the better. Simple sketches and a short description will help our staff of Phoney Patent examiners to issue a Phoney Patent on your invention in a jiffy.

PHONEY PATENT OFFIZZ

Prize Winner. SUBMARINE KILLER. Shark Carries High Explosives in Tank Strapt to His Back. Extensiom Beam Carries Fish-Bait in Front of His Nose. This Makes Him Speedy Trying to Catch Fish. Inverted Marine Glasses Make Submarine Appear Like Small Fish. He Rushes for It—Contact Nose Piece Operates Spark Coil, Which Blows Up the Tank, Sub., Shark and All. Inventor, John P. Buckley, Washington, D. C.

SELF-PROPELLED BOAT. Water Enters Ship's Bow Thru Inlet, Leaving It by Outlet, Incidentally Driving Water Turbine. The Latter Drives Air Compressor, Which Runs Air Engine and This Drives the Dynamo. The Latter Charges Storage Battery Which Runs Motor. Motor Operates Ship's Propeller, Thus Ship Will Never Run Out of Power. Inventor, Thomas Stewart, Jersey City, N. J.
