

Refinements in War Motors

Motor-trucks equipped with searchlights have played an important rôle in the World War. They have multiplied in number until now hundreds are employed by each of the warring nations. Above is shown a high-power searchlight illuminating a road. The truck is of American design and manufacture

An American manufacturer has designed a truck operated from both ends. When beset by the enemy the crew need not turn around. The car fitted with an armor body is shown above at the left, while the stripped chassis may be seen below, the superstructure being drawn in faintly to show the positions of the drivers
